

Letter of Authorization

Company: BeiJing Sinfotek Technology Co.,Ltd
Contact Person: Ms. Liu Ying
Position: President
Address: 302-303 Haohai Building, NO.7, Shangdi Wujie, Beijing, P.R. China

Deltares foundation is an independent institute for applied research in the field of water, subsurface and infrastructure, located at Boussinesqweg 1, 2629 HV Delft, The Netherlands.

Deltares foundation was the joint applicant for the MOST grant project on Development, Benefits Evaluation and Demonstration of New Models of Urban Rainwater Utilization (2018-2022, project number 2018YFE0206200), and planned to undertake the modelling services, stated in the project proposal. Dr. Ye Qinghua is the project leader from Dutch side.

Deltares foundation is pleased to authorize BeiJing Sinfotek Technology Co.,Ltd (<http://www.sinfotek.com>) as the exclusive representative to offer the urban rainwater modelling services for this project. The newly developed modelling technology includes spatio-temporal dynamic allocation of urban rainwater utilization, to bridge the gap of rainwater harvesting and rainwater utilization and provide support to the research on restriction mechanisms and multi-dimensional benefit identification.
